

Our sole focus is to increase your company's profits by maximizing your tax credits and incentives and enhancing corporate performance.

“The tax credits Net Profit procured for one of our subsidiaries gained our attention. We then broadened their responsibility to allow Net Profit to look into other tax credits and much to our surprise it has resulted in significant tax savings for Georgia Pacific. Net Profit delivered more than expected and our relationship remains strong.”

—Georgia Pacific

Frequently Asked Questions

- Q:** Who qualifies for these programs?
A: After obtaining over \$350,000,000 in tax credits and processing over 13,000 sites, we have found that approximately 20% of all new hires qualify for some program or programs.
- Q:** When using Net Profit, what are my staff's duties?
A: We have a simple, secure process that, once implemented, is virtually transparent:
1. Incorporate the streamlined Tax Credit Questionnaire and IRS form 8850 into your hiring process.
 2. Submit those 2 forms to Net Profit on a weekly basis.
 3. Submit payroll information on a weekly basis.
- All information can be viewed using our online system at www.netprofitincrease.com
- Q:** What are these programs worth to me?
A: The average middle market company has saved \$100,000 per year. The average large company has saved well over \$1,000,000 per year.
- Q:** What are my costs?
A: Our fees are based solely on the credits or incentive packages we obtain for you. If we do not recover credits and incentives, we do not get paid.
- Q:** Why can't my CPA or tax attorney do this?
A: Accounting firms focus primarily on tax compliance and reporting. Net Profit specializes in tax credit and incentive recovery and on enhancing the profitability of our clients.

why not keep more of it?**

What can Net Profit Give You?

Services you need:

Net Profit offers a **unique service** to employers throughout the U.S. Specializing in leading-edge tax-credit, financial incentives, and employee benefit services, Net Profit maximizes your tax savings and enhances your financial performance.

- Our **tax credit services** can reduce your Federal and State tax liabilities by identifying all potential tax credits, obtaining all required documentation and certifications, and monitoring tax legislation to identify all new opportunities.
- Our **economic incentive services** can reduce your capital investment in new or expanded facilities by identifying and securing financial benefits from governmental jurisdictions.
- Our **Benefits-In-a-Card division**, which is endorsed by the American Staffing Association as a Savings Solutions Partner, can provide your employees with low cost, voluntary group benefit programs.
- We can even help you obtain **training grants** for qualified training programs!

Seamless integration

Net Profit uses cutting edge technology to reduce time on task and enhance your results. Our proprietary system integrates easily into your company's technology environment to enable a quick and efficient transition of work and minimize your staff's involvement in the process.

Our online system can be integrated into any online hiring system. It enables screening of employee and applicant information to determine eligibility for Federal and State tax credit programs, while significantly increasing compliance levels. The nearly paperless system reduces processing costs, using printed documents only where signatures are required.

Maximum tax savings:

Our specialized research team closely monitors Federal and State tax credit and incentive activities, compiling information into our proprietary system to ensure complete accuracy so you can truly take advantage of every opportunity available.

Expedited certification:

Our highly developed network and years of experience with government agencies gets your certification processed quickly and efficiently.

Peace of mind:

We are endorsed by several leading associations so you can be assured our business practices and reputation are sound. Net Profit services over 13,000 locations in all 50 states.

Reduced burden:

Our simple administrative and filing procedures reduce the burden on you and your staff, allowing you to focus on your business!

Each year, there are billions of dollars of Federal and State tax credits just waiting to be claimed. Yet most of them never are. Why? It's simply too complex, time consuming, and costly for most companies to comply with these government programs.
